00100, Nairobi, Kenya

PROFESSIONAL SUMMARY

Enthusiastic Data Collector with a passion for creating and gathering unique text, image, audio, and video data to fuel AI and next-generation technology. Excited to support the training of virtual assistants, chatbots, and security systems by capturing meaningful, high-quality data from real-world settings. With a keen eye for detail and a strong commitment to contributing to innovative projects, I bring energy and precision to every task, from recording speech variations to sourcing impactful images and text. Thrilled to play a part in shaping the future of AI through hands-on data collection.

SKILLS

TECHNICAL SKILLS

- Data Analytics & Management: Data analytics, data management, data security, compliance, data interpretation
- Programming & Development: Python, SQL, Java, C++, C, JavaScript, React
- Data Visualization: Power BI, Tableau
- Machine Learning & AI: Machine learning, artificial intelligence understanding, deep learning concepts, predictive modeling, statistical analysis
- Tools & Platforms: Jupyter Notebooks, Google Colab, Google Workspace, Microsoft Applications

SOFT SKILLS

- Communication & presentation
- Collaboration & teamwork
- Problem-solving
- Attention to detail
- Adaptability
- Ethical practice
- Growth fostering

EXPERIENCE

- **AI Training and Evaluation (Papaya Projects):** Evaluated and trained AI models to improve data processing capabilities, significantly enhancing multilingual support and data dissemination by 98%, leading to more accurate and timely insights.
- **Freelance Data Visualization and Design:** Created dynamic visual designs using Adobe Photoshop and Illustrator, achieving a 70% increase in client engagement and satisfaction through visual communication and quality.
- **Data Analytics Projects (ALX):** Led data analytics projects using SQL, Python, and Power BI to create and optimize data dashboards, resulting in an 80% improvement in my decision-making and analytics skills.

EDUCATION

MAY 2023 – AUGUST 2024 Certificate in Data Science/ ALX

SEPTEMBER 2022 – JANUARY 2023 IBM Data Science Practitioner Training/ Jomo Kenyatta University of Agriculture and Technology

SEPTEMBER 2021 – CURRENT Bachelor's in Information Technology/ Jomo Kenyatta University of Agriculture and Technology
